It is Miquon's policy to assess both natural parents' capacity to contribute to tuition, regardless of any private arrangements or court orders stipulating parental contributions to education. The assessment of each parent's financial circumstances will be made independently, taking into account obligations to other children or step-children. Both parents are required to complete this application and the PFS, including financial information for all members of their own household. The PFS should be submitted to SSS, and all supporting documents to Miquon.

It is expected that both parents will collaborate in the application process, forwarding materials either together or separately, and meeting deadlines. Financial information submitted to Miquon by either parent will remain completely confidential. Both parents will receive notification of any award that is offered to their child(ren).

Check one of the boxes below:

We live separately, file taxes separately, and are applying for financial aid separately.

We live separately but will file taxes jointly for 2012 and have completed the PFS jointly.
(Please describe on a separate sheet all additional expenses incurred because you are living in two households.)

I am solely responsible for financing my child's Miquon education and despite Miquon's policy (above) it is not appropriate to ask the other parent for a financial statement for the following reasons (check all that apply):

___ whereabouts unknown, adoption, donor, deceased

___ no contact with me or child for at least one year

___ incarceration or court restraining order

Please note that "inability or unwillingness to pay" does not constitute a valid reason to exempt a parent from assessment. The Financial Aid Committee will impute an income for a non-participating parent that will affect your family's calculated contribution.
